

This document represents the efforts of the Remedy-One Pharmacy and Therapeutics (P&T) and Formulary Committees, on behalf of Wellfleet Rx, a pharmacy solution provided by Wellfleet Group, LLC (Wellfleet), in collaboration with Express Scripts (ESI), to provide physicians and pharmacists with a method to evaluate the safety, efficacy and cost-effectiveness of commercially available drug products. This is accomplished through the auspices of the P&T Committees with input from Wellfleet and its Student Health Advisory Board. These committees meet quarterly and more often as warranted to ensure clinical relevancy of the Formulary. To accommodate changes to this document, updates are made accessible as necessary. The P&T Committees use the following criteria in the evaluation of drug selection for the Student Formulary:

- Drug safety profile
- Drug efficacy
- Comparison of relevant therapeutic benefits to current formulary agents of similar use, and to minimize therapeutic duplication where possible
- Cost-effectiveness relative to comparable therapies

How to Use the Formulary

The Formulary is a list of medications available to Wellfleet Rx members under their pharmacy benefit. All drugs are listed by their generic names or most common proprietary (branded) name. Any drugs not found in this formulary listing or any formulary updates published by Wellfleet Rx are considered non-formulary drugs and require prior authorization.

All drugs are listed in each category in alphabetical order by generic or brand name. If the generic drug is FDA approved, it will appear *italicized* in the formulary listing. Covered brand drugs appear in CAPITALIZED font.

Some drugs on the formulary have certain process requirements or limitations for coverage. These are denoted by:

Symbol	Name	Description
AGE	Age Edit	Drug may not be recommended for some patients based on age.
Och	Oral Chemo Drug	Refer to your plan document for oral chemotherapy drug benefits.
PA	Prior Authorization	Requires your doctor to request prior authorization to support use of this drug.
QL	Quantity Limit	Coverage may be limited to specific quantities per prescription and/or time period.
SP	Specialty	Requires your doctor to request prior authorization to support use of this drug. Drugs may need to be filled at a Specialty pharmacy as opposed to retail.
ST	Step Therapy	Coverage may depend on previous use of another drug.

Benefit Coverage and Limitations

This printed Formulary does not provide information regarding the specific coverage and limitations an individual member may have. Many members have specific benefit inclusions, exclusions, copays, or a lack of coverage, which are not reflected in the Formulary. For example, drugs for the treatment of infertility may not be covered. Refer to your benefit summary for more information regarding your specific coverage.

The Formulary applies only to outpatient drugs provided to members and does not apply to medications used in inpatient settings. If a member has any specific questions regarding their coverage, they should contact Wellfleet or Wellfleet Rx at the phone numbers listed on their ID card.

Excluded Agents

As new drugs become available, they will be considered for coverage under the Student Formulary. The plan administrator has the right to decide what drugs are covered and to what extent, as well as the right to modify coverage including the exclusion of any prescription drugs. Please note that prescribing guidelines such as Prior Authorization, Step Therapy, Quantity Limit, etc., may still apply to Formulary Therapeutic Alternatives.

Non-Formulary and Step Therapy Exception Requests

A member (or their appointed representative, prescribing physician, or authorized prescriber) may request a standard/non-urgent or expedited/urgent preservice/prior and current authorization for a drug that is subjected to utilization management tools such as step therapy. To initiate an exception request, contact 877-640-7938. Prior authorization guidelines will be made available to the member, member's authorization representative, prescribing physician and other authorized prescriber upon request.

How to Access Pain Management Alternatives to Opiate Products

Your plan covers medication and non-medication treatments as alternatives to opiate products for pain management. Non-opiate medication alternatives include non-steroidal anti-inflammatory drugs (NSAIDs), muscle relaxants, and topical anesthetics. Non-medication alternatives include chiropractic care, individual behavioral health therapy, including biofeedback and training on meditative practices to alleviate pain, and pain management injections, including trigger point and fascia injections. Please discuss the covered medication alternatives covered under the formulary with your health care provider. You can access these medications from a participating pharmacy. To find a participating pharmacy near you, please call the Member Pharmacy Help Desk at the toll-free number on your ID card, or visit <https://wellfleetrx.com/students/pharmacy-network/> for more information. To find a participating provider in your plan's provider network, please call the toll-free number on your ID card, or visit <https://wellfleetstudent.com/providers/>.

Depending upon a member's specific benefit, the following topics may apply:

1. Generic Substitution

When available, FDA approved generic drug used in most situations, regardless of the brand name indicated. Members usually have lower copays and or co-insurance when they use generic drugs. This policy is not meant to preclude or supplant any state statutes that may exist. All drugs that are or become available generically are subject to review by the P&T Committee. Wellfleet Rx approves such multi- source drugs for addition to the MAC list based on the following criteria:

- A multi- source drug product manufactured by at least one (1) nationally marketed company.
- At least one (1) of the generic manufacturer's products must have an "A" rating or the generic product has been determined to be unassociated with efficacy, safety or bioequivalency concerns by the P&T Committee.
- Drug product will be approved for generic substitution by the P&T Committee.

If a member requests a brand name drug instead of an approved generic, the member, based on their coverage, is typically required to pay the difference in cost between the brand and the generic. Doctors can request prior authorization if they determine that there is a medical need for the brand name drug.

2. Three Tier Benefit

The Formulary may be applied to a three-tier benefit design, where the member shares the cost of prescription drug therapy at three levels of copayment. In most instances, generically available drugs will be covered under the first or lowest copay tier, branded drugs listed on the Formulary will be covered under the second copay tier, and branded drugs not on the Formulary will be covered under the third or highest copay tier.

3. Medication Synchronization (MedSync)

For select medications (brand or generic, opioids included), a pro-rated copay will be applied if dispensed for less than a predefined day supply. This applies to patients receiving partial fills for the purposes of medication synchronization or who are starting new medication with a shortened fill to align with other already synchronized medications. The pro-rated amount will be calculated based on the maximum allowable day supply for the individual plan benefit and applies to flat copayment.

4. Medication Request Process

Depending upon plan benefit design, a medication request process may apply as follows:

A. Formulary Drugs

Drugs that are listed in the Formulary with associated Prior Authorization (PA) require evaluation, per P&T Committee Prior Authorization guidelines prior to dispensing at a network pharmacy. Each request will be reviewed on an individual patient need basis. If the request does not meet the guidelines established by the P&T Committee, the request will not be approved, and alternative therapy may be recommended.

B. Non-Formulary Drugs

Any drug not found in the Formulary listing, or any Formulary updates published by Wellfleet Rx, shall be considered a Non-Formulary drug. Coverage for non-formulary agents may be applied for in advance. When a member gives a prescription order for a non-formulary drug to a pharmacist, the pharmacist will evaluate the patient's drug history and contact the physician to determine if there is a reasonable medical need for a non-formulary drug. Each request will be reviewed on an individual patient need basis. Approval will be given if a documented medical need exists. The following basic guidelines are used:

- The use of formulary drugs is contraindicated in the patient.
- The patient has failed an appropriate trial of formulary or related agents.
- The choices available in the formulary are not suited for the present patient care need, and the drug selected is required for patient safety.
- The use of a formulary drug may provoke an underlying condition, which would be detrimental to patient care.

If the request does not meet the guidelines established by the P&T Committees, the request will not be approved, and alternative therapy may be recommended.

C. Obtaining Coverage

Coverage, questions or information regarding the medication request or formulary process may be obtained by:

- Faxing 877-251-5896 with a completed Prior Authorization Request Form.
- Contacting Wellfleet Rx at 877-640-7938 and providing all necessary information requested.

Wellfleet Rx will provide an authorization number, specific for the medical need, for all approved requests. Non-approved requests may be appealed. The prescriber must provide information to support the appeal on the basis of medical necessity. Prior Authorization is generally not available for drugs that are specifically excluded by benefit design.

6. General Exclusions

- A. Over the Counter (OTC) medications or their equivalents, unless otherwise specified in the Formulary listing.
- B. Nicotine Smoking Cessation products (i.e., transdermal nicotine, nicotine gum, nicotine inhaler), except as required by ACA.
- C. Drugs specifically listed as not covered.
- D. Any drug products used for cosmetic purposes.
- E. Experimental drug products or any drug product used in an experimental manner.
- F. Replacement of lost or stolen medication.
- G. Non-self-administered injectable drug products unless otherwise specified in the Formulary listing.
- H. Foreign sourced drugs or drugs not approved by the United States Food & Drug Administration.

Any drugs not listed in this print formulary are considered excluded from the drug benefit and are not covered. The P&T and Formulary Committees recognize that not all medical needs can be met with this document and encourage inquiries about alternative therapies.

7. Pharmacist and Physician Communication

The Formulary is a tool to promote cost- effective prescription drug use. The P&T and Formulary Committees have made every attempt to create a document that meets all therapeutic needs; however, the art of medicine makes this formidable a task.

Drug list created 1/1/2019. Updated 1/1/2021. Next planned update 7/1/2021.

Zero Cost Generics

In addition to the ACA Preventive Care medications listed under the \$0 Tier in the formulary, the generic drugs listed in the table below are covered at no cost to you. We encourage you to share this list with your prescriber if you are receiving a medication in one of the categories below to determine if a zero cost option may be appropriate for your treatment.

\$0 Copay Generics

Antibiotics	
Amoxicillin Capsules (250mg, 500mg)	Amoxicillin Tablets (875mg)
Azithromycin Tablets (250mg, 500mg)	Cephalexin Capsules (250mg, 500mg)
Sulfamethoxazole-Trimethoprim Tablets (400-80mg, 800-160mg)	

Antianxiety/Antidepressants	
Citalopram HBr Tablets 10mg	Sertraline HCl Tablets (50mg, 100mg)
Paroxetine HCl Tablets (10mg, 20mg, 30mg, 40mg)	

Acne	
Benzoyl Peroxide External Gel (5%, 10%)	Benzoyl Peroxide Wash External Liquid (5%, 10%)
Clindamycin Phosphate External Gel (1%)	Clindamycin Phosphate External Solution (1%)
Clindamycin Phosphate External Swab (1%)	Erythromycin External Solution (2%)
Sulfacetamide Sodium External Lotion (10%)	Sulfacetamide Sodium-Sulfur External Emulsion (10-5%)

Bipolar Disease/Schizophrenia	
Olanzapine Tablets (2.5mg, 5mg, 7.5mg, 10mg, 15mg)	
Quetiapine Fumarate Tablets (25mg, 50mg, 100mg, 200mg)	
Risperidone Tablets (0.25mg, 0.5mg, 1mg, 2mg, 3mg, 4mg)	

Narcotic Antagonists	
Naloxone Injection Auto-Injector	Naloxone Injection Solution
Naloxone Injection Syringe	Narcan Nasal Spray (brand)

List of Abbreviations

0: ACA Preventative

1: Tier 1

2: Tier 2

3: Tier 3

\$0 Copay: Drugs currently priced at \$0 Copay

Och: Oral Chemo Drugs

PA: Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

QL: Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover.

SP: Specialty Drugs

ST: Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.
