

**How to Use
This
Document**

This document is intended to summarize changes to the Wellfleet Rx Student Formulary that will go into effect as of 7/1/2023*. For all other medications not listed below, refer to the January 2023 Student Formulary for information on formulary status.

* State laws in Connecticut, Louisiana, and Texas require your plan to cover medications at the same benefit level until your plan year ends. This also applies to policies in Colorado and New York that have been issued since 1/1/2023. This means that if a medication covered under your formulary at the start of your plan year is taken off the formulary, is changed to a different cost-share tier, or has new utilization management requirements, these changes will not go into effect until the next plan year. If your current plan year has an effective date after 1/1/2023, this document will not accurately reflect your current coverage. Please reference the applicable January 2023 Wellfleet Rx Student Formulary on <https://wellfleetrx.com/students/formularies/> for your current benefits.
