

Wellfleet Rx is a pharmacy solution provided by Wellfleet Group, LLC (Wellfleet). This document represents the efforts of the Wellfleet Rx Pharmacy and Therapeutics (P&T) and Value Assessment Committees, in collaboration with Express Scripts (ESI), to provide physicians and pharmacists with a method to evaluate the safety, efficacy and cost-effectiveness of commercially available drug products. This is accomplished through the auspices of the P&T Committees with input from internal departments at Wellfleet and its Student Health Advisory Board. These committees meet quarterly and more often as warranted to ensure clinical relevancy of the Formulary. To accommodate changes to this document, updates are made accessible as necessary. The P&T Committees use the following criteria in the evaluation of drug selection for the Student Formulary:

- Drug safety profile
- Drug efficacy
- Comparison of relevant therapeutic benefits to current formulary agents of similar use, and to minimize therapeutic duplication where possible
- Cost-effectiveness relative to comparable therapies

**How to Use the Formulary**

The Formulary is a list of medications available to Wellfleet Rx members under their pharmacy benefit. All drugs are listed by their generic names or most common proprietary (branded) name. Any drugs not found in this formulary listing or any formulary updates published by Wellfleet Rx are considered non-formulary drugs and require prior authorization. All drugs are listed in each category in alphabetical order by generic or brand name. If the generic drug is FDA approved, it will appear *italicized* in the formulary listing. Covered brand drugs appear in CAPITALIZED font.

Some drugs on the formulary have certain process requirements or limitations for coverage. These are denoted by:

Symbol	Name	Description
<b>AGE</b>	Age Edit	Drug may not be recommended for some patients based on age.
<b>Och</b>	Oral Chemo Drug	Refer to your plan document for oral chemotherapy drug benefits.
<b>PA</b>	Prior Authorization	Requires your doctor to request prior authorization to support use of this drug.
<b>QL</b>	Quantity Limit	Coverage may be limited to specific quantities per prescription and/or time period.
<b>Specialty</b>	Specialty Medications	Subject to Specialty tier Copay. Pharmaceutical, biotech or biological drugs that are used in the management of chronic, orphan or rare diseases and has a monthly cost ≥ \$670 for a 30-day supply. These injectable or non-injectable medications may possess more than one of the following attributes: <ul style="list-style-type: none"> <li>• Requires specialized storage, distribution, and/or handling</li> <li>• Frequent dosing adjustments and clinical monitoring to decrease potential for drug toxicity and improve clinical outcomes</li> <li>• Involves additional patient education, adherence, and/or support</li> <li>• May include generic or biosimilar products</li> <li>• Limited or exclusive drug distribution restrictions</li> </ul>

<b>ST</b>	Step Therapy	Coverage may depend on previous use of another drug.
<b>ACA</b>	ACA Preventative Medications	ACA Preventative Medications. These products will have \$0 cost-share for specific populations.
<b>Opioid</b>	Opioid Medications	These medications have additional limitations and rules. See below under ‘Opioid Medications’ for more information.

**Benefit Coverage and Limitations**

This printed Formulary does not provide information regarding the specific coverage and limitations an individual member may have. Many members have specific benefit inclusions, exclusions, copays, or a lack of coverage, which are not reflected in the Formulary. For example, drugs for the treatment of infertility may not be covered. Refer to your benefit summary for more information regarding your specific coverage.

The Formulary applies only to outpatient drugs provided to members and does not apply to medications used in inpatient settings. If a member has any specific questions regarding their coverage, they should contact Wellfleet or Wellfleet Rx at the phone numbers listed on their ID card.

**Excluded Agents**

As new drugs become available, they will be considered for coverage under the Student Formulary. The plan administrator has the right to decide what drugs are covered and to what extent, as well as the right to modify coverage including the exclusion of any prescription drugs. Please note that prescribing guidelines such as Prior Authorization, Step Therapy, Quantity Limit, etc., may still apply to Formulary Therapeutic Alternatives.

**Non-Formulary and Step Therapy Exception Requests**

A member (or their appointed representative, prescribing physician, or authorized prescriber) may request a standard/non-urgent or expedited/urgent preservice/prior and current authorization for a drug that is subjected to utilization management tools such as step therapy. To initiate an exception request, contact 877-640-7938. Prior authorization guidelines will be made available to the member, member’s authorization representative, prescribing physician and other authorized prescriber upon request.

**How to Access Pain Management Alternatives to Opiate Products**

Your plan covers medication and non-medication treatments as alternatives to opiate products for pain management. Non-opiate medication alternatives include non-steroidal anti-inflammatory drugs (NSAIDs), muscle relaxants, and topical anesthetics. Non-medication alternatives include chiropractic care, individual behavioral health therapy, including biofeedback and training on meditative practices to alleviate pain, and pain management injections, including trigger point and fascia injections. Please discuss the covered medication alternatives covered

under the formulary with your health care provider. You can access these medications from a participating pharmacy. To find a participating pharmacy near you, please call the Member Pharmacy Help Desk at the toll-free number on your ID card, or visit <https://wellfleetrx.com/students/pharmacy-network/> for more information. To find a participating provider in your plan's provider network, please call the toll-free number on your ID card, or visit <https://wellfleetstudent.com/providers/>.

**Depending upon a member's specific benefit, the following topics may apply:**

**1. Generic Substitution**

When available, FDA approved generic drug used in most situations, regardless of the brand name indicated. Members usually have lower copays and or co-insurance when they use generic drugs. This policy is not meant to preclude or supplant any state statutes that may exist. All drugs that are or become available generically are subject to review by the P&T Committee. Wellfleet Rx approves such multi- source drugs for addition to the MAC list based on the following criteria:

- A multi- source drug product manufactured by at least one (1) nationally marketed company.
- At least one (1) of the generic manufacturer's products must have an "A" rating or the generic product has been determined to be unassociated with efficacy, safety or bioequivalency concerns by the P&T Committee.
- Drug product will be approved for generic substitution by the P&T Committee.

If a member requests a brand name drug instead of an approved generic, the member, based on their coverage, is typically required to pay the difference in cost between the brand and the generic. Doctors can request prior authorization if they determine that there is a medical need for the brand name drug.

**2. Three Tier Benefit**

The Formulary may be applied to a three-tier benefit design, where the member shares the cost of prescription drug therapy at three levels of copayment. In most instances, generically available drugs will be covered under the first or lowest copay tier, branded drugs listed on the Formulary will be covered under the second copay tier, and branded drugs not on the Formulary will be covered under the third or highest copay tier. In order to see applicable copays for your plan, navigate to your school landing page located at [WellfleetStudent.com](http://WellfleetStudent.com) and view your summary of benefits.

**3. Medication Request Process**

Depending upon plan benefit design, a medication request process may apply as follows:

*A. Formulary Drugs*

Drugs that are listed in the Formulary with associated Prior Authorization (PA) require evaluation, per P&T Committee Prior Authorization guidelines prior to dispensing at a network pharmacy. Each request will be reviewed on an individual patient need basis. If the request does not meet the guidelines established by the P&T Committee, the request will not be approved, and alternative therapy may be recommended.

*B. Non-Formulary Drugs*

Any drug not found in the Formulary listing, or any Formulary updates published by Wellfleet Rx, shall be considered a Non-Formulary drug. Coverage for non-formulary agents may be applied for in advance. When a member gives a prescription order for a non-formulary drug to a pharmacist, the pharmacist will evaluate the patient's drug history and contact the physician to determine if there is a reasonable medical need for a non-formulary drug. Each request will be reviewed on an individual patient need basis. Approval will be given if a documented medical need exists. The following basic guidelines are used:

- The use of formulary drugs is contraindicated in the patient.
- The patient has failed an appropriate trial of formulary or related agents.
- The choices available in the formulary are not suited for the present patient care need, and the drug selected is required for patient safety.
- The use of a formulary drug may provoke an underlying condition, which would be detrimental to patient care.

If the request does not meet the guidelines established by the P&T Committees, the request will not be approved, and alternative therapy may be recommended.

*C. Obtaining Coverage*

Coverage, questions or information regarding the medication request or formulary process may be obtained by:

- Faxing 877-251-5896 with a completed Prior Authorization Request Form.
- Contacting Wellfleet Rx at 877-640-7938 and providing all necessary information requested.

Wellfleet Rx will provide an authorization number, specific for the medical need, for all approved requests. Non-approved requests may be appealed. The prescriber must provide information to support the appeal on the basis of medical necessity. Prior Authorization is generally not available for drugs that are specifically excluded by benefit design.

#### **4. General Exclusions**

- A. Over the Counter (OTC) medications or their equivalents, unless otherwise specified in the Formulary listing.
- B. Nicotine Smoking Cessation products (i.e., transdermal nicotine, nicotine gum, nicotine inhaler), except as required by ACA.
- C. Drugs specifically listed as not covered.
- D. Any drug products used for cosmetic purposes.
- E. Experimental drug products or any drug product used in an experimental manner.
- F. Replacement of lost or stolen medication.
- G. Non-self-administered injectable drug products unless otherwise specified in the Formulary listing.
- H. Foreign sourced drugs or drugs not approved by the United States Food & Drug Administration.
- I. New drug entities will be excluded for up to 180 days after they become available on the market until a formulary decision is made. Depending on the formulary decision, the new drug entity may be excluded or have additional requirements under the formulary thereafter.

Any drugs not listed in this print formulary are considered excluded from the drug benefit and are not covered. The P&T and Formulary Committees recognize that not all medical needs can be met with this document and encourage inquiries about alternative therapies.

#### **5. Opioid Medications**

1. Opioid Overutilization Prevention – Opioid medications for treatment of pain will be available to Wellfleet members under the following restrictions which are reflective of current State and Federal guidance for prescribing of these agents.
  - a. Maximum Days' Supply for Opioid Prescriptions
    - i. Prescriber Type
      1. General Prescribers – 5-day supply
      2. Dentists – 3-day supply
      3. Oncologists – No limit
  - b. Cumulative Morphine Milligram Equivalents (MME) Limit (all prescriptions in last 120 days included) – Cumulative MME are utilized for calculating the total daily dose of opioids. Monitoring of MME allows clinicians to appropriately adjust prescribed opioid medications and are often used to reduce risk of overdose.
    - i. 90 MME total (and above) will encounter a soft rejection at the pharmacy which can be overridden by a pharmacist (except in the state of Pennsylvania).
    - ii. 120 MME total (and above) will encounter a hard rejection which requires prior authorization to be obtained by the prescriber.
  - c. More than a 5-day supply across all opioid prescriptions within a 60-day period will require a prior authorization.
  - d. Quantity limits will be placed on opioid medications at the individual medication level.

## How can you save money on medications?

Wellfleet Rx aims to help remove cost as a barrier to care as much as possible so you can achieve your health and well-being goals. The following programs may help you reduce your out-of-pocket expenses on important medications.

- **Wellfleet Rx zero cost drugs list –**
  - In addition to covering [preventive care medications](#) with no cost sharing, the Wellfleet Rx Student Formulary offers commonly prescribed antibiotic, dermatology, mental health medications, and more at no copay. We encourage you to share this [zero cost drugs list](#) with your prescriber to determine if one of these medications may be appropriate for your treatment.
- **Discounts on non-covered OTC products –**
  - Sometimes prescribers will write a prescription for over-the-counter (OTC) products if they are recommended as part of your treatment. OTC products are generally not covered under the Wellfleet Rx Student Formulary. However, your prescription for an OTC product may be eligible for a discount off the retail price. You should try to obtain a prescription for OTC products you use and present it to the pharmacy to determine if it may be eligible under Wellfleet Rx's discount program.
  - Eligible categories of OTC products may include pain relief, allergy, topical (skin) treatments, vitamins, supplements, laxatives, and more.
- **Wellfleet Rx Copay Assistance Program –**
  - If you have a complex or chronic condition that requires treatment with a high-cost specialty medication, your medication may be eligible for copay assistance from the drug manufacturer. For a full listing of the eligible medications and to determine if your plan is eligible for the program, please review “Copay Assistance Program Drug List and Frequently Asked Questions” document under “Current Wellfleet Rx Formularies” on the [Wellfleet Rx](#) website. If you receive a prescription for one of these medications, a professional from the Copay Assistance Program team will contact you to enroll you in the assistance program so you may receive the medication at little to no cost.
- **Manufacturer assistance programs –**
  - If your plan is not eligible for the Copay Assistance Program (see above), you may still be eligible for manufacturer assistance. Manufacturer assistance is available directly from many drug companies. Services provided range from cost sharing assistance to therapeutic resource pharmacists available to answer clinical questions you may have. [NeedyMeds](#) is a valuable resource that aggregates information on these programs.\*

## January 2025 Student Formulary – Preventive Care Medications with \$0 Copay Updates Effective 1/1/2025

### U.S. Preventative Services Task Force A & B Recommendations

The Patient Protection and Affordable Care Act (PPACA) requires that certain health plans cover essential health benefits (EHB) without charging a copayment, coinsurance, or deductible. EHBs include a variety of preventative services and medications and are outlined by US Preventive Services Task Force (USPSTF) recommendations with an A or B rating. Based on the recommendations of USPSTF and the Centers for Disease Control and Prevention (CDC), Wellfleet Rx has identified preventative medications to be covered under the pharmacy benefit and updates this list of medications and coverage criteria as needed.

USPSTF and CDC recommendation updates can occur at any time, and health plans have specified timelines to implement these recommendations in compliance with federal law. Plans that meet the definition of a “grandfathered” plan are not subject to EHB requirements. State specific requirements may vary. Wellfleet Rx will monitor for ACA-related guidance and updates to ensure compliance with all regulations.

### Standard EHB Zero Copay Table

All medications, including specified OTC items (e.g., aspirin, contraceptives, folic acid), included on the Wellfleet Rx EHB Zero Copay table are covered at zero copay if the member has a valid prescription; however, some medications are only covered at a zero copay for the population specified (e.g., specified age range). The table below contains the specific drug list contained in the EHB Zero Copay Table.
